GRADE & CHARACTER

Natural character — visible knots and grain movement, balanced and measured.

BEFORE FITTING

Store packs flat and unopened in the room where they will be laid, with heating at normal living conditions, for at least 48 hours before fitting. Subfloors must be flat, clean and dry. Blend boards from several packs as you lay.

CARE & MAINTENANCE

Oiled finish: sweep or vacuum regularly and clean with a pH-neutral soap made for oiled wood floors. Refresh high-traffic areas with a maintenance oil as needed — an oiled floor can be spot-repaired without sanding.

FITTED BY LIGNORA

Supplied throughout the UK and fitted by our own in-house team — the same fitters on every job. Technical certificates are available on request.
